- Form 1040. A Preparer Tax Identification Number (PTIN) is mandatory on all returns prepared by a paid preparer beginning on January 1, 2011. PTINs obtained for the 2023 filing season expire on December 31, 2023. Using SSN instead of PTIN may subject the paid preparer to penalties and you will likely be contacted by the IRS if you choose to file without a PTIN. For more information about PTINs or for PTIN renewal, please visit www.irs.gov/ptin.

Form: CA 540

- California. The California return contains 2D barcodes, scannable representations of the tax return data. The barcodes are generated during the calculation phase based on the results of the return. Therefore, any handwritten additions, deletions or revisions made to the return will not be reflected within the 2D barcodes, and consequently, for filing purposes. If changes to the tax return are necessary, they should be made through the software, and the return recalculated so that the 2D barcodes are a complete and accurate representation of the tax return data. In addition, the return containing the 2D barcode should be submitted in the form order provided by the software, as an incorrect collation may hinder the processing of the tax return. Forms watermarked "Do Not File" should not be filed, as the printed versions, including the 2D barcode, have not been approved by the taxing authority. To avoid delays in the processing of tax returns, the Franchise Tax Board requests that all mailed tax returns are printed single sided only. Duplex printed tax returns can increase the amount of time to process the return. (33472)

Before you check Box A, B, or C below, see whether you received any Form(s) 1099-B or substitute statement(s) from your broker. A substitute statement will have the same information as Form 1099-B. Either will show whether your basis (usually your cost) was reported to the IRS by your broker and may even tell you which box to check.

Part I Short-Term. Transactions involving capital assets you held 1 year or less are generally short-term (see instructions). For long-term transactions, see page 2.

Note: You may aggregate all short-term transactions reported on Form(s) 1099-B showing basis was reported to the IRS and for which no adjustments or codes are required. Enter the totals directly on Schedule D, line 1a; you aren't required to report these transactions on Form 8949 (see instructions).

You must check Box A, B, or C below. Check only one box. If more than one box applies for your short-term transactions, complete a separate Form 8949, page 1, for each applicable box. If you have more short-term transactions than will fit on this page for one or more of the boxes, complete as many forms with the same box checked as you need.

- ☒ (A) Short-term transactions reported on Form(s) 1099-B showing basis was reported to the IRS (see **Note** above)
- ☐ (B) Short-term transactions reported on Form(s) 1099-B showing basis **wasn't** reported to the IRS
- ☐ (C) Short-term transactions not reported to you on Form 1099-B

[illegible]

Note: If you checked Box A above but the basis reported to the IRS was incorrect, enter in column (e) the basis as reported to the IRS, and enter an adjustment in column (d) to correct the basis. See *Column (d)* in the separate instructions for how to figure the amount of the adjustment.
